

Lifespan Integration Certification Protocols
Building A Solid Enough Core Sign Off Sheet: Attunement Protocol

Candidate Name: _____

Therapist Name: _____

Protocol	Date Completed	Notes
Attunement 1 of 3 required		
Attunement 2 of 3 required		
Attunement 3 of 3 required		
Talk Session to assess Attunement progress		Discuss if further Short-Term or Long-Term Attunement work will be needed to establish "Solid Enough" Core. Determine if Candidate wants to continue certification process.
Attunement		
Attunement		
Attunement		
Attunement		

Certification candidates must complete a MINIMUM of 3 attunement sessions, followed by a talk session in which the therapist estimates to the candidate how many more attunement sessions might be needed for the sake of ensuring a solid core. The Attunement work is recommended to be completed first, but may be done in any order with other protocols. It must, however, be administered by only one LI Certified+ Therapist, while the candidate is able to use other LI Certified+ Therapists to experience all other required protocols.

When the LI therapist has determined that the candidate has a solid enough core sign below:

I, _____ (therapist name), verify that _____ (candidate name) has completed a sufficient number of attunement sessions to develop a solid core self, and he/she is ready to move on to Stage Two of the Certification Protocols Check List.

Therapist Signature: _____

Date: _____
